## Target Audience

*This course is for individuals who want to understand how to fully use the features of the Perl programming language in Web Application development.*

## Prerequisites

*No prior knowledge of the Perl programming language is necessary. However, students should be familiar with using the Internet, developing Web pages, configuring networks, and have Web scripting knowledge.*

## Online Resources Provided!

All CIW courses offer Case Studies for class discussion about real-world skills applications and job-related topics. Guided, step-by-step labs provide opportunities to practice new skills. Students can challenge themselves and review their skills after each lesson in the Lesson Summary and Lesson Review sections.

Additional skill reinforcement is provided in Activities, Optional Labs, Lesson Quizzes and a Course Assessment that are available from the teacher.
