Web and Mobile Design Series

Data Analyst

Course Topics

*This course will undertake learning in the following areas…*

- Fundamentals of Data Analysis

- Introduction to Big Data

- Working with Data Sources

- Tools for Capturing and Analysing Data

- Analysing and Reporting Data

Target Audience

All students and professionals preparing to enter or continue in the workforce fields of Website Development and design can benefit from the CIW Data Analyst course and/or certification.

Prerequisites

Students should have an understanding of spreadsheets, databases, business processes, websites, and coding. Other courses in the Web and Mobile design series can be beneficial for this.

Online Resources Provided!

All CIW courses offer Case Studies for class discussion about real-world skills applications and job-related topics. Guided, step-by-step labs provide opportunities to practice new skills. Students can challenge themselves and review their skills after each lesson in the Lesson Summary and Lesson Review sections.

Additional skill reinforcement is provided in Activities, Optional Labs, Lesson Quizzes and a Course Assessment that are available from the teacher.
