How will my apprenticeship progress?

Starting your programme

We will meet with your employer prior to induction to identify key activities within your job role, to ensure that you are working towards the correct and most suitable apprenticeship standard. This is an ideal opportunity for your employer and yourself to agree on the most appropriate delivery method and study day. We will then be able to offer you more accurate information, support and guidance to set realistic but challenging goals that meet your apprenticeship standard, job role and employer demand.

Study day - 20% Off the job training

All new standards must contain 20% off the job training. This is calculated using the apprentices contracted employment hours across their whole apprenticeship – equivalent to around one day per working week. Your mentor will provide you with a record log for completion.

What can be used as off the job training?

- Theory – such as lectures
- Role-playing
- Online learning
- Simulation exercises or industry training
- Staff shadowing
- Mentoring
- Industry visits
- Competitions
- Learning support
- Time spent writing assignments

Next step - Functional Skills requirements

Initial diagnostic assessment of your standard of English & Maths will be carried out via eLearning tool **bksb**. You will be required to achieve level 2 in these functional skills before the end of your apprenticeship. Support will be provided by your mentor as you work through the bksb programme to ensure you are able to achieve this in time for your end point assessment.

If you have already achieved Level 2 (GCSE grade C/level 4 or above) in English and Maths then you may be exempt from completing the functional skills programme, providing you are able to produce certificates.

Additional learning support

Where a mentor identifies that more specialist support is required in driving achievement in English and Maths, we will arrange to provide you with a functional skills specialist tutor.

Recognised prior learning

Where previous qualifications or experience can be validated as evidence towards your apprenticeship, please discuss this with your mentor before submitting the evidence using the link and form below:

[Recognised prior learning policy & application form](#)

Induction

Your mentor will work with you to create your individual learning plan (ILP) – this will capture the details of your apprenticeship programme, when you will reach key milestones and how you will go about achieving them.

This gives you the opportunity to find out more about your programme, what is expected of you and what you can expect from Digital Marketing Mentor.

Stage 1 – Teaching & Learning

Your knowledge, skills and behaviours will be developed and assessed with the aim of becoming competent in your job role - as set out in the apprenticeship standard. We will work with you to set clear individual objectives, goals and mock assessments. You will work through your flexible individual learning plan in agreement with your employer and mentor. This will enable you to maintain progress against your apprenticeship standard whilst supporting employer priorities in the workplace.

Stage 2 – Gateway

Your mentor and employer will decide when they think you are ready for end point assessment, usually in the last three months of the apprenticeship programme. Your mentor will make arrangements for EPA, once it is agreed that there is sufficient evidence to support competence against the standard.

Stage 3 – End Point Assessment

Your competence will be assessed at this point, as set out in the standard assessment plan. Depending on the level and design of the programme being followed, your end point assessment may consist of a range of the following:

- A portfolio of evidence
- Workplace Observation
- Multiple choice Test
- Synoptic project
- Research Project/Case study
- Professional discussion/Interview/Question & Answer

There is a minimum pass rate that will need to be reached, otherwise a resit will be arranged.

Mentoring & Quads Direct

Each time any teaching, learning or assessment takes place, your mentor will document what has been delivered or assessed in your e-portfolio Quads Direct. These sessions will be delivered remotely via web conferencing platform Zoom, as discussed and agreed with your employer. They will take place approximately 2-3 times per month.

Progress Reviews

These reviews will take place every 12 weeks from the program start date and will be face to face meetings with learner, employer and mentor. They will include a review of work undertaken, discussing current work priorities and projects, and identifying any additional learning and support requirements. Your functional skills progress will be monitored, documented and supported.

Along with your mentor and employer, you will agree what targets are to be achieved by the time of the next review. Any adjustments to your ILP can take place here.

Completion, Progression & Certification

Once successful, you will receive your course completion certificate from the Institute for Apprenticeships.

Advice & guidance

What next? – Your mentor will discuss with you and your employer possible progression steps, e.g. higher level qualifications, promotions, further training etc

Prevent Duty

The **Prevent duty** is the duty in the Counter-Terrorism and Security Act 2015. It is a duty on all education providers to have due regard to preventing people being drawn into terrorism.

Training providers are major education providers for the 16-25 year age group, who are particularly vulnerable to radicalisation. Digital Marketing Mentor has an integral part to play in fostering a set of shared 'British values' and promoting community cohesion.

The government's own definition of extremism as contained within the Prevent strategy will be the definition used within Digital Marketing Mentor's policy and is:

Vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces.

British values are defined as:

“democracy, the rule of law, individual liberty and mutual respect and tolerance for those with different backgrounds, characteristics, beliefs and faiths”

This definition is a natural extension of Digital Marketing Mentor’s values: Integrity, Passion, Trust, Innovation and Teamwork.

Aims of the Prevent Policy

This policy has the following aims:

1. To promote and reinforce a set of shared values, founded on tolerance and respect for others.
2. To create a safe space for free and open debate.
3. To promote a sense of community cohesion both within Digital Marketing Mentor and within its wider external community.
4. To ensure that students are safe in the workplace and in an environment that is free from bullying, harassment and discrimination.
5. To support students who may be at risk from radicalisation by providing materials and holding discussions and to be able to signpost them to further external sources of support where appropriate.
6. To ensure that staff are aware of their responsibilities under this policy and are able to recognise and respond to vulnerable students.

This policy should be read in conjunction with Digital Marketing Mentor’s safeguarding policy and Digital Marketing Mentor’s Equality and Diversity Policy

Data Protection and Confidentiality
