Publication of Digital Marketing Mentor Information

Information that is already in the public domain regarding Digital Marketing Mentor is exempt from the Data Protection Act 2018. It is Digital Marketing Mentor's policy to make as much information about the company as public as possible.

Subject Consent

In many cases, Digital Marketing Mentor can only process personal data with the consent of the individual. In cases where the data is sensitive, express consent must be obtained. Agreement to Digital Marketing Mentor processing some specified classes of personal data is a condition of acceptance of a learner onto any course, and a condition of employment for staff. This includes information about previous criminal convictions.

Some jobs or courses will bring the applicants into contact with children, including young people between the ages of 16 and 18. Digital Marketing Mentor has a duty under the Children Act and other enactments to ensure that staff are suitable for the job, and also students for the courses offered.

Digital Marketing Mentor also has a duty of care to all staff and students and must therefore make sure that employees and those who use company facilities do not pose a threat or danger to other users. Digital Marketing Mentor will also ask for information about particular health needs, such as allergies to particular forms of medication, or any condition such as asthma or diabetes. Digital Marketing Mentor will only use the information in the protection of the health and safety of the individual, but will need consent to process the data in the event of a medical emergency, for example.

Processing Sensitive Information

Sometimes it is necessary to process information about a person's health, criminal convictions, race and gender and family details. This may be to ensure that Digital Marketing Mentor is a safe place

for everyone, or to operate other Digital Marketing Mentor policies, such as sick pay policy or equal opportunities policy.

Because this information is considered sensitive, and it is recognised that the processing of it may cause particular concern or distress to individuals, staff and students will be asked to give express consent to Digital Marketing Mentor to do this. Offers of employment or course places may be withdrawn if an individual refuses to consent to this, without good reason.

Digital Marketing Mentor has 2 designated data controllers. They are the:

- Founder - David Prescod
- Managing Director - Julie Thompson

Learners are entitled to information about their marks for both coursework and examinations. However this may take longer than other information to provide. Digital Marketing Mentor may withhold certificates, accreditation or references in the event that the full course fees have not been paid, or books and equipment have not been returned.

Retention of Data

Digital Marketing Mentor will keep some forms of information for longer than others. Because of storage limitations, information about students cannot be kept indefinitely, unless there are specific requests to do so. In general, information about students will be kept for a maximum of five years after they leave Digital Marketing Mentor. This will include:

- Name and address, and
- Academic achievements, including marks for coursework

All other information, including information about health, race or disciplinary matters will be destroyed within three years of the course ending and the learner leaving. Digital Marketing Mentor will need to keep information about staff for longer periods of time. In general, all information will be kept for five years after a member of staff leaves Digital Marketing Mentor. Some information however, will be kept for much longer. This will include information necessary in respect of pensions, taxation, potential or current disputes or litigation regarding the employment, and information required for job references.

Staff Guidelines for Data Protection

1. All staff will process data about students on a regular basis, when marking registers, or Digital Marketing Mentor work, writing reports or references, or as part of a pastoral or academic supervisory role. Digital Marketing Mentor will ensure through registration procedures, that all students give their consent to this sort of processing, and are notified of the categories of processing, as required by the 1998 Act.

4. Digital Marketing Mentor will designate staff in each area as 'authorised staff'. These are the only staff authorised to hold or process data that is:

- Not standard data; or
- Sensitive data.

The only exception to this will be if a non-authorised staff member is satisfied that the processing of data is necessary:

- In the best interests of the student or staff member, or a third person, or Digital Marketing Mentor; AND he or she has either informed the authorised person of this, or has been unable to do so and processing is urgent or necessary in all the circumstances.

5. Authorised staff will be responsible for ensuring that all data is kept securely.

6. Staff must not disclose personal data to any student, unless for normal academic or pastoral purposes, without authorisation of agreement from a data controller, or in line with company policy.

7. Staff shall not disclose personal data to any other member of staff except with the authorisation and agreement of a designated data controller, or in line with company policy.

8. Before processing any personal data, all staff should consider the checklist.

Staff Checklist for Recording Data

- Is the information 'standard' or 'sensitive'?
- If it is sensitive, do you have the data subject's express consent?

- Are you authorised to collect/store/process the data?
- If yes, have you checked that the data is accurate?

Any deliberate breach of the data protection policy may lead to disciplinary action being taken, or access to Digital Marketing Mentor facilities being withdrawn, or even a criminal prosecution. Any questions or concerns about the interpretation or operation of this policy should be taken up with a designated data controller.
